

Don't just use AI. Build with it.

AI Engineering Club

Every week, 2 hours, hands-on.

The after-school club where students learn how AI really works, how to use it well, and how to build their own projects with it, safely and honestly.

THE TERM

Wk 1–2	How AI thinks — and why it gets things wrong
Wk 3–4	Prompting like a pro — research, writing, learning faster
Wk 5–6	Spot the fakes — fact-checking, deepfakes, bias
Wk 7–9	Build your own — an app, a chatbot or a game, in teams
Wk 10	Play it safe — privacy, honesty and AI at school
Wk 11	Showcase — teams present their projects to parents

EVERY STUDENT LEAVES WITH

- ✓ Their own AI project
- ✓ Smart, honest AI habits
- ✓ A sharp eye for fakes
- ✓ A showcase for the family
