

Don't let the students take over.*

AI Execution Day Get your teachers AI-fit in one day.

* At least not without you knowing how it works. Make sure you can keep up with your students' learning curve by getting AI-fit yourself.

THE DAY

- 09:00** **How AI really works** — and where it fails
-
- 10:30** **The toolbox, hands-on** — prompting, research, automating your own routines
-
- 12:00** **AI in the classroom** — planning, feedback, integrity, risks
-
- 13:00** **Lunch**
-
- 14:00** **Build it together** — one shared school project, built live with AI
-
- 16:00** **Showcase** — and everyone takes the playbook home

YOU LEAVE WITH

- ✓ A real project, built by the team
- ✓ Your personal AI toolkit
- ✓ A classroom playbook
- ✓ A follow-up Q&A, four weeks later
